

1

CLEANSE

Wet your skin and in circular motions, gently massage the cleanser onto the appropriate area. Afterwards, rinse thoroughly.

2

EXFOLIATE

After cleansing, use one of our exfoliating products and gently scrub in circular motions. Gently rinse off any product that is left over.

3

TREAT (MASK)

Apply the mask to your face and allow to set. After the mask has dried for the appropriate amount of time, gently scrub in circular motions. Gently rinse off any product that is left over.

Night

4

BALANCE (TONER)

Add an extra touch to cleansing with Seacret's Mineral-Rich Refining Toner; which helps restore the balance of the skin's pH and removes any excess oil or dirt that cleansing missed.

5

NOURISH (SERUM)

For added hydration and nutrition, serums slide in between the Cleansing and Moisturizing steps of your regimen. After cleansing, use your fingers to evenly apply a small amount of product to the area that it is targeted for. Then apply your moisturizer afterwards.

6

MOISTURIZE

The last step in a regimen would be to moisturize. Use your favorite Seacret moisturizer to keep your face hydrated. Put a small amount on your fingers and massage into your skin in circular motions, adding more product if needed.
